PROJECTS

Digital Clock

- Twelve hour Digital Clock that displays time digitally unlike analog clock that displays time by the positions of rotating hands.
- The current time is displayed in AM/PM format.
- With current time it also displays the current date, month, year and day.
- Tkinter module is used for GUI.

Reminder Application with Notification

- The pop up appears on desktop as per the inputs given by the user.
- User is asked about what he/she wants to be reminded off and at what time, according to that the application reminds them by notification on the screen.

Intelligent Tour Recommendation System (ITRS)

- An application that takes inputs from the users on where, when and what they would like to see/go and according to that the recommendation is provided.
- Recommendation is provided on the basis of previous reviews of the people who have visited the place.
- We have used content filtering with cosine similarity, collaborative filtering and KNN algorithm.

EXPERIENCE

Group Project Leader   Jan 2020 - Apr 2021
College

- Observed progress of each project, examined risks and coordinated contingency plans.
- Managed team meetings and discussed project's goals and objectives.
- Aligned with project guide to develop, identify and achieve assigned goals and initiatives.
- Built successful project plans covering objectives, resources and staffing to meet schedules.
- Tracked project and team member performance closely to quickly intervene in mistakes or delays.
- Conducted research, gathered information from multiple source and presented results.
